Evidence-Based Geriatric Nursing Protocols for Best Practice, Fourth Edition

Marie Boltz, PhD, RN, Elizabeth Capezuti, PhD, RN, FAAN, Terry T. Fulmer, PhD, RN, FAAN, DeAnne Zwicker, DrNP, APRN, BC, Ardis O'Meara, Editor

**DUE
NOV.
2011**

"As a gerontological clinical educator/research nurse, I will often use this as a reference. The format and the content are good, and the explanations of how to best use the evidence simplify the process of sifting through mountains of information to figure the best practice." Score: 97, 5 stars

—Doody's

One of the premier reference books for geriatric nurses in hospital, long-term, and community settings, this Fourth edition has been thoroughly updated to provide the most current, evidence-based protocols for care of common clinical conditions and issues in elderly patients. Designed to improve the quality, outcomes, and cost-effectiveness of health care, these guidelines are the result of collaboration between leading practitioners and educators in geriatric nursing and New York University College of Nursing.

Key Features:

- Updated to provide a wide range of evidence-based geriatric protocols for best practices
- Contains new chapters on function-focused care, catheter-associated urinary tract infections, mistreatment detection, acute care models, and transitional care
- Illustrates application of clinical protocols to real-life practice through case studies and discussion

Gerioperative Nursing Care Principles and Practices in Surgical Care of the Older Adult

Raelene V. Shippee-Rice, PhD, RN
Susan Fetzer, PhD, RN, MBA
Jennifer V. Long, CRNA, CRNP, MS

**DUE
NOV.
2011**

This timely volume introduces gerioperative care, a new model of surgical care for the elderly, designed to improve surgical outcomes and prevent complications through a focus on communication and relationship-centered care. It is the only book to specifically address the care of older adults undergoing surgery, providing practitioners with critical, practical, and theoretical information from the initial decision to have surgery through the first follow-up visit post-discharge. The text includes the anatomy and physiology of aging, preoperative care, intraoperative and post-anesthesia care, postoperative care, returning home, risk appraisal, education, prevention, early intervention, multidisciplinary team collaboration, and effective communication across all systems of care.

Key Features:

- Presents a comprehensive new gerioperative care model for older adults undergoing surgery
- Follows patient from primary to follow-up care, including hospital care, ambulatory care, emergency and elective surgery, and perioperative care
- Applies primary, secondary, and tertiary care concepts to surgery
- Presents an innovative focus on case management, with new care guidelines

Aging, Society, and the Life Course, Fourth Edition

Leslie A. Morgan, PhD
Suzanne R. Kunkel, PhD

Doody's Score: 91, 4 Stars

This is a comprehensive textbook for both undergraduate and graduate level courses, detailing the impact of societal forces on the aging process. The book focuses on the diversity of the older population, examining it from micro/macro perspectives in order to understand aging and the life course as social phenomena.

This latest edition examines significant changes in the field of social gerontology, such as the paradigms of aging and the life course, the baby boomer cohorts as they approach retirement and later life, the growing interest in global aging, and civic engagement. This text encourages students to examine aging from personal, familial, community, societal and global perspectives, including both the positive and negative realities of aging.

Key Features:

- Provides websites of interest at the end of each chapter
- Presents provocative essays on love, sex, music, medicine, and crime to further expand on chapter contents
- Provides review questions and key terms as study guides at the end of each chapter
